

23 March 2020

**To our valued Members, Staff, Community and Charity partners and Suppliers**

Our hearts and thoughts go out to the many people directly impacted by COVID-19 and we wish to thank our healthcare professionals for the work they are undertaking.

In line with NSW Government's directive to close non-essential services, The Epping Club has been forced into mandatory shutdown from midday Monday 23 March.

This closure is for an undetermined period to assist in the fight against COVID-19. The Government looks to review this closure on a monthly basis before determining when these measures can be lifted.

We wish everybody in the community good health and hopefully a return to business very soon. We will remain in communication with all our loyal members through social media and our website to keep you updated on this unprecedented situation. Feel free to also reach out and say hello, as we'll miss you too.

We will get through this together and as soon as we have a re-opening date, you'll be the first to know.

We look forward to seeing you in the recovery stage.

David Taylor  
**Club President**

Peter Saez  
**Chief Executive Officer**
